

Anabaptist Financial presents business seminars from an Anabaptist perspective. Our seminars help you develop operational skills, implement best practices, work together in harmonious relationships, and plan for the next generation. Join us for a unique opportunity to:

- **Hear sound teaching** – that integrates Biblical values and spiritual truth with practical business counsel.
- **Advance your business education** – by attending year after year. Our systematic coverage of all aspects of business leads to well-rounded business training. Each year focuses on different areas of business operations and management.
- **Invest your time well** – by setting aside the tasks of one day to focus on your long-term business development. Time invested in personal growth has good returns.
- **Energize your vision** – with renewed inspiration for personal growth and renewed purpose in your business life.
- **Gain kingdom focus** – by learning and growing in kingdom-focused business theory and practice. Learn how others live out the Sermon on the Mount in daily business life.
- **Interact with other Anabaptist business people** – from our own circles, who share their business experience. Gain insights and connections that you will not find at secular or non-Anabaptist seminars.

Anabaptist Financial's business seminars are not only for business owners, partners, and families. Anyone who provides products and services and interacts with the public will benefit. From beginners to old pros, everyone is welcome.

Topics to Note

Building a Biblical Foundation, Kirby Crist

"Except the Lord build...your labor is in vain." A robust foundation is crucial to the endurance and success of any project. The Word of God offers much practical wisdom and strong foundational principles for success in today's business climate.

Healthy Habits, Titus Hess

The greatest accomplishments are the results of doing a myriad of little things well. What habits do successful leaders need to develop? How do we move from poor habits to healthy habits? Be inspired to break bad habits and adopt new habits that will allow you and your team to thrive!

Thriving Amidst Seasonality & Fluctuation, Leon Wengerd

When the economic pendulum takes an erratic or extreme swing, are you agile enough to adjust before cash reserves are exhausted? Seasonality likewise creates challenges in cash flow and workload. Learn how to manage the ebb and flow of seasons, predict industry trends, and diversify supply chains with built in flexibility and durability.

When is Efficiency not Effective, Andy Dutter

Bean counters and production managers love to promote efficiency. When output can be increased without raising input, profits increase! Sometimes it may be best to step back and ask what is being lost or what opportunities are unwittingly neglected in the drive for efficiency.

Inspiring our Posterity for the Kingdom, Leon Wengerd

Many of us are working in our family businesses and would like to see our children get involved. Is this always the best scenario, or are there other options we should consider? This topic will include ideas on how to prepare our children for the challenges they will face in family business, the work place, and other kingdom work.

Business Management Panel:
